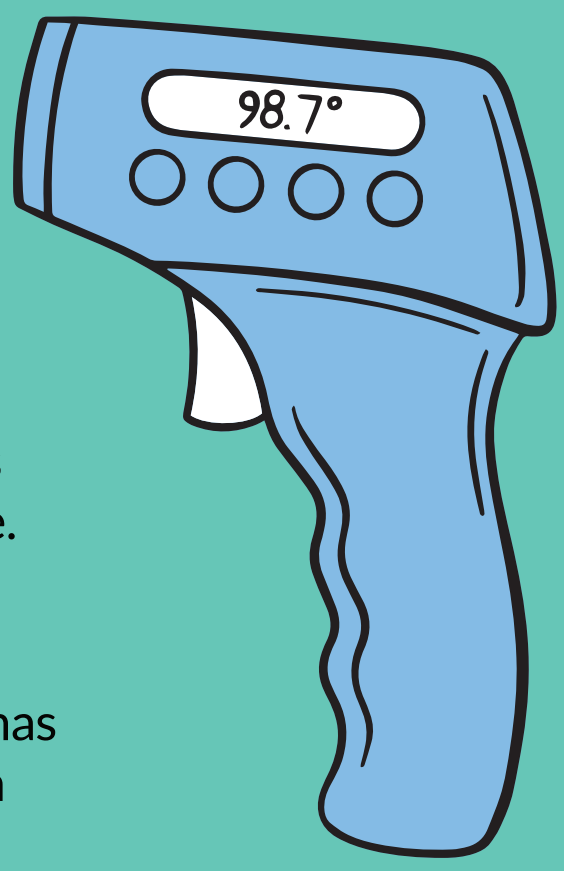
# WE'RE KEEPING OUR WORK FAMILY SAFE BY SCREENING FOR COVID-19



## PLEASE BE PATIENT AS WE SCREEN EVERYONE.

- To stay healthy at work we are screening our employees for COVID-19, every day, before entering the workspace. We will also ask about a possible cough, shortness of breath, difficulty breathing and fever or chills.
- We need to know if you or someone in your household has been in contact with a person known to be infected with COVID-19 in the last 14 days.
- Lastly, we will do a quick temperature check on your forehead.
